Valid from 01/01/2026 to 30/06/2026.

Custom fees, taxes and freight charges not included (if applicable).

ABOUT US

Cojali S. L., based in Campo de Criptana, is a Spanish multinational manufacturer of components and electronics, which also develops solutions of advanced diagnostics, connectivity and remote diagnostics for commercial vehicles, agricultural equipment, OHW equipment, material handling equipment and vessels, as well as ISOBUS compatibility solutions for tractors and implements.

Thanks to the wide expertise in the development of on-board and workshop technology solutions, Cojali is actively working on data processing and analysis, being this a strategic business activity, which enables the implementation of improvement processes and the release of new products onto the market.

Finally, Cojali provides a comprehensive training offer, as well as complete solutions for technical support, aimed at ensuring the successful use of technology in the automotive industry.

Cojali S. L. has four subsidiaries: Cojali France, Cojali Italy, Cojali USA and Cojali India, and three sales offices in Germany, Turkey, and Mexico.

COJALI ALWAYS LOOKS FORWARD WITH THE PURPOSE OF OFFERING CUTTING-EDGE TECHNOLOGY WITHIN THE AUTOMOTIVE INDUSTRY.

ADDITIONAL MODULES FOR TECHNICAL INFORMATION

Reference	Description	Price
70605043	JALTEST MODULAR INFO PLUS - ONE YEAR NEW	125,00 €

- *Notes:
- Jaltest Link + Software + Licence activation (one year) are compulsory to perform diagnostics.
 - The validity of new licences must always match the one of the original licence. To calculate the price of the new licence, the remaining days until its expiration will be taken into account, calculating the proportional part of the price in decimals.
 - It will be necessary to purchase INFO Plus for as many modular licences as the equipment has.

JALTEST INFO PLUS

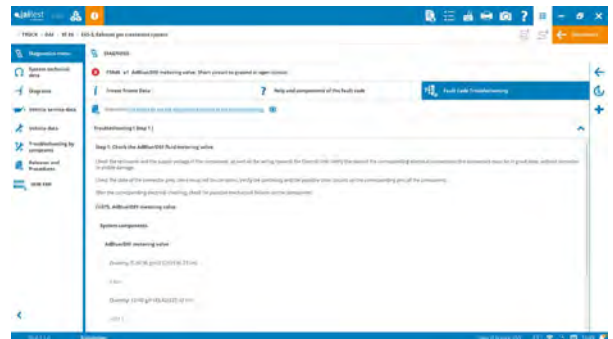

Jaltest INFO Plus is the innovative module of technical information that includes **smart guides** and **wiring diagrams of the model**, thus providing a huge amount of additional technical information for the repair and maintenance of vehicles. With a fast and intuitive design, this module optimises the working times at the workshop through guided processes and includes worthy wiring diagrams of the complete vehicle.

After two years of promotion, **Jaltest INFO Plus** is now available for purchase, provided that there is a CV (or Modular) licence in force.

 **Wiring diagrams of the model:** They represent the electrical connections of the vehicle in its totality, including all electrical components, wiring and connectors.

 **Smart guides:** Guided repair processes to redirect the user to the right step, depending on the vehicle state, fault codes and parameters registered. This way, we prevent the Jaltest user from checking unnecessary steps.

Jaltest INFO Plus licences

Reference	Description	Price
70605005	JALTEST INFO PLUS - ONE YEAR	275,00 €
70605043	JALTEST MODULAR INFO PLUS - ONE YEAR	125,00 €
70605015	JALTEST TRUCK SELECT INFO PLUS - ONE YEAR	50,00 €

Updated coverage by clicking [HERE](#)

Note: For INFO Plus references, please visit the corresponding page.

KNORR-BREMSE DIAGNOSTICS

Knorr-Bremse Diagnostics is the new Knorr-Bremse software which has been integrated into the Jaltest Diagnostics software. This enables the diagnostics of Knorr-Bremse systems in truck and trailer vehicles according to original specifications from Knorr-Bremse. This software also includes the original technical information.

KNORR-BREMSE DIAGNOSTICS ADD-ON

Software activation

Reference	Description	Price
71502007	KNORR-BREMSE DIAGNOSTICS ADD-ON - SOFTWARE (LICENCE OF USE)	515,00 €

Renewal, second and successive years

Reference	Description	Price
71602007	KNORR-BREMSE DIAGNOSTICS ADD-ON - RENEWAL OF LICENCE OF USE - ONE YEAR	515,00 €

Notes: - A valid CV or modular licence will be required for its subscription.
 - The Knorr-Bremse Diagnostics Add-On module will be locked if this licence or the CV or modular licences are not renewed.

KNORR-BREMSE DIAGNOSTICS (STANDALONE VERSION)

Software activation

Reference	Description	Price
71502008	KNORR-BREMSE DIAGNOSTICS - SOFTWARE (LICENCE OF USE)	515,00 €
79301002	KNORR-BREMSE TRAILER DIAGNOSTICS - SOFTWARE (LICENCE OF USE) NEW	390,00 €

Renewal, second and successive years

Reference	Description	Price
71602011	KNORR-BREMSE DIAGNOSTICS - RENEWAL OF LICENCE OF USE - ONE YEAR	515,00 €
79401003	KNORR-BREMSE TRAILER DIAGNOSTICS - RENEWAL OF LICENCE OF USE - ONE YEAR NEW	390,00 €

Notes: - To combine this licence with Jaltest, it will be necessary to request a product change to Knorr-Bremse Diagnostics Add-on.
 - Available languages: English, Spanish, German, Portuguese, Russian, Italian, French, Polish, Turkish, Czech, Dutch, and Hungarian.
 - It requires a Jaltest hardware kit.

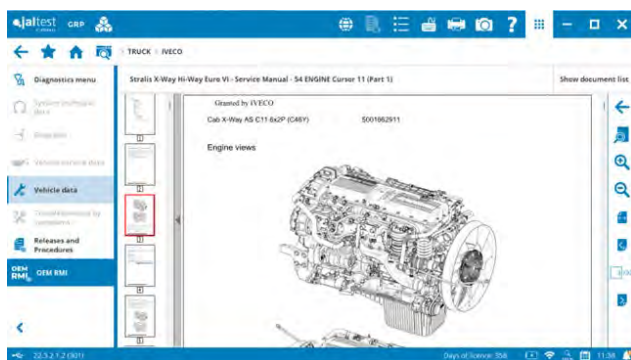

JALTEST OEM RMI (REPAIR AND MAINTENANCE INFORMATION)

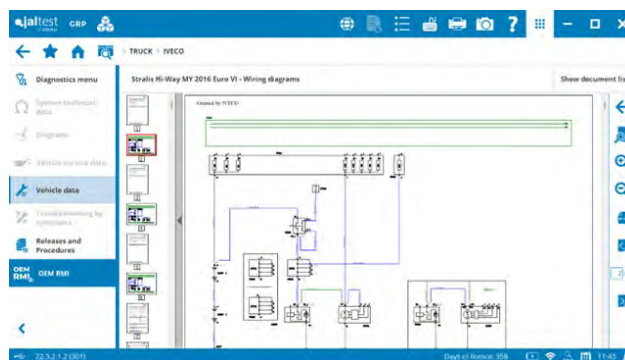

RMI stands for "Repair and Maintenance Information", that is, technical information for the repair and maintenance of vehicles.

In this regard, Cojali has signed an agreement with some manufacturers of the 7 main truck brands in order to integrate a module in Jaltest Diagnostics that allows access to this technical information and whose subscription can be made by brand. This module is based on the regulation EU 2018/858 by which vehicle manufacturers must give access to the information relative to diagnostics, service and maintenance.

Available brands

Granted by IVECO

Granted by IVECO

Reference	Description	Price
70901006	OEM RMI IVECO. MONTHLY SUBSCRIPTION*	350,00 €
70901007	OEM RMI IVECO. YEARLY SUBSCRIPTION*	900,00 €
70901002	OEM RMI DAF. MONTHLY SUBSCRIPTION*	450,00 €
70901003	OEM RMI DAF. YEARLY SUBSCRIPTION*	1.500,00 €
70901010	OEM RMI SCANIA. MONTHLY SUBSCRIPTION	450,00 €
70901011	OEM RMI SCANIA. YEARLY SUBSCRIPTION	1.500,00 €

* Currently available in English and Spanish

- Notes:
- OEM RMI licences will not be aligned with the rest of the Jaltest Diagnostics software subscriptions. Therefore, the subscription will be made independently for the selected time period.
 - Internet connection is required to access the OEM RMI module after subscription. In addition, in order to guarantee an optimal and efficient service, a fast and stable connection is advisable.
 - For other subscription options (weekly and daily), click [here](#).

SGW UNLOCKING (SECURITY GATEWAY)

Jaltest Diagnostics allows access to protected vehicles that are equipped with a SGW security module in order to perform advanced diagnostics functionalities. Our equipment has been approved as compatible tool by Iveco and FCA, offering easy connection between the user's diagnostics tool and the OEM authentication servers.

Jaltest allows its users to access diagnostics functionalities such as bidirectional tests, DTC clearing and the rest of functions necessary to carry out the complete repair of the vehicle.

- Advanced functions.
- Component actuation.
- Maintenance service and calibration.

Note: A Jaltest device with licence in force is required.

FCA SGW

Reference	Description	Price
70607001	FCA SGW	220,00 € (One year from the subscription date)

Iveco SGW activation

Reference	Description	Price
70607002	IVECO SGW ACTIVATION PER COMPANY	90,00 € (Until 31st December of the ongoing year)
70607003	IVECO SGW ACTIVATION PER DEVICE	200,00 € (Until 31st December of the ongoing year)

Iveco SGW renewal

Reference	Description	Price
78500001	IVECO SGW RENEWAL PER COMPANY	90,00 € (Until 31st December of the ongoing year)
78500002	IVECO SGW RENEWAL PER DEVICE	90,00 € (Until 31st December of the ongoing year)

Notes: - To subscribe to the SGW module for Iveco, the product must be acquired per company (70607002) and per device (70607003). The renewal of SGW must be requested from 1 November to 15 December of the ongoing year, thereby acquiring references 78500001 and 78500002. If the renewal is requested after 15 December, in order to continue having access to the services, a subscription to SGW as a new activation will be required per company (70607002) and per device (70607003).
- Cojali reserves the right to modify the prices of the SGW module at any moment and without previous written notification. The subscription process must always be carried out through Cojali.

JALTEST INFO WEB

Nowadays, having information related to our vehicle, regardless of the moment and place, is becoming increasingly important. Therefore, Cojali has developed **Jaltest INFO Web**, a platform accessible to all that offers all technical information available in Jaltest in a fast and easy way.

If you are a Jaltest distributor, you can now subscribe **Jaltest INFO Web** for CV, AGV, OHW, MHE and Marine (complete) modules through the distributor access at www.jaltest.com, for both Jaltest users and non-Jaltest users.

Upon subscription, **Jaltest INFO Web** can be accessed from any device* using internet connection, by logging in at <https://infoweb.jaltest.com/> with the email address provided for this matter.

CONDITIONS

1. Non-Jaltest user price policy applies to Jaltest units with expired licences.
2. Per each device with licence in force, a maximum of 10 Jaltest INFO Web accounts can be subscribed at Jaltest user price. In the event of being interested in subscribing to this product for a larger number of accounts, please contact Cojali.
3. For Jaltest user accounts, the validity of Jaltest INFO Web will be aligned with the current licence of the device.
4. For Jaltest devices with one or more licences in force, any INFO Web product will be purchased at Jaltest user price.

JALTEST ATS (ADVANCED TECHNICAL SUPPORT)

One year of Jaltest ATS (English language)

Jaltest ATS will provide solutions to optimise the repair times at your workshop.

This support consists of:

1. Advanced technical support, hotline service. Monday to Friday: **8am - 5pm (GMT+1)**
2. Access to technical information through our website: www.jaltest.com
3. Access to technical documents (wiring diagrams, graphs, etc.) via e-mail.
4. Technical explanations for document interpretation.
5. Support for the search, location and interpretation of breakdowns.
6. Support for electrical, electronic and pneumatic breakdowns, for all electronic controlled systems installed in a vehicle.
7. Online Advanced Technical Support.
8. Online version presentations.

One year of ATS

Reference	Description	Price
70808004	ONE YEAR OF ATS. CV/OHW OR MULTIPLE MODULES	950,00 €
70809004	UN AÑO DE ATS. JALTEST AGV/MHE/VEHÍCULOS MULTIPROPÓSITO/MARINE	675,00 €
29805	UN AÑO DE ATS. JALTEST ADAS	360,00 €

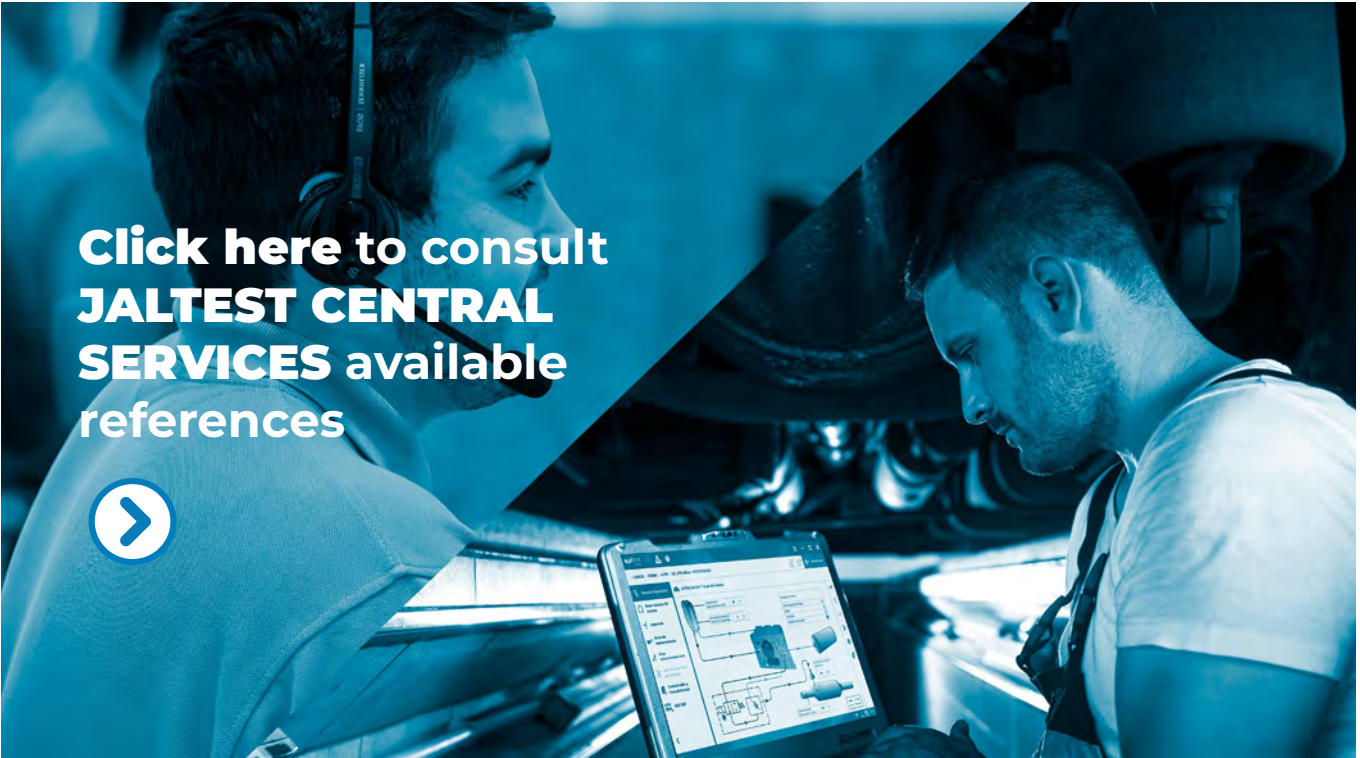

Note: The advanced technical support service has an annual periodicity and will be renewed automatically. Acceptance of this service requires maintaining such service for a period of 12 months. The eventual resignation of the service shall be formalised in writing at least thirty days prior to the deadline.

JALTEST CENTRAL SERVICES

Jaltest Central Services is a new pay-per-use service, that allows clients to contact our expert technicians, who will assist them in carrying out exclusive functions that could not be performed with Jaltest or any other aftermarket tool until now, such as the reprogramming of certain ECUs.

Optional cables

Reference	Description	Price
JDCM2150	CUMMINS ECM CM2150. INSULATION HARNESS	277,00 €
JDCM2250	CUMMINS ECM CM2250. INSULATION HARNESS	289,00 €
JDCM2350/2450	CUMMINS ECM CM2350/2450. INSULATION HARNESS	246,00 €
JDCM2670/2880	CUMMINS ECM CM2670/2880. INSULATION HARNESS	393,00 €
JDCM850	CUMMINS ECM CM850. INSULATION HARNESS	246,00 €

- Note
- The ATS Department might require that the user has any of the cables.
 - The version of Jaltest Link must be V7 or later to be able to purchase.
 - Cojali reserves the right to modify JCS prices, at any moment and without previous written notification.
 - The availability of the service is subject to the conditions indicated in Jaltest and by the ATS team when requesting the functionality.

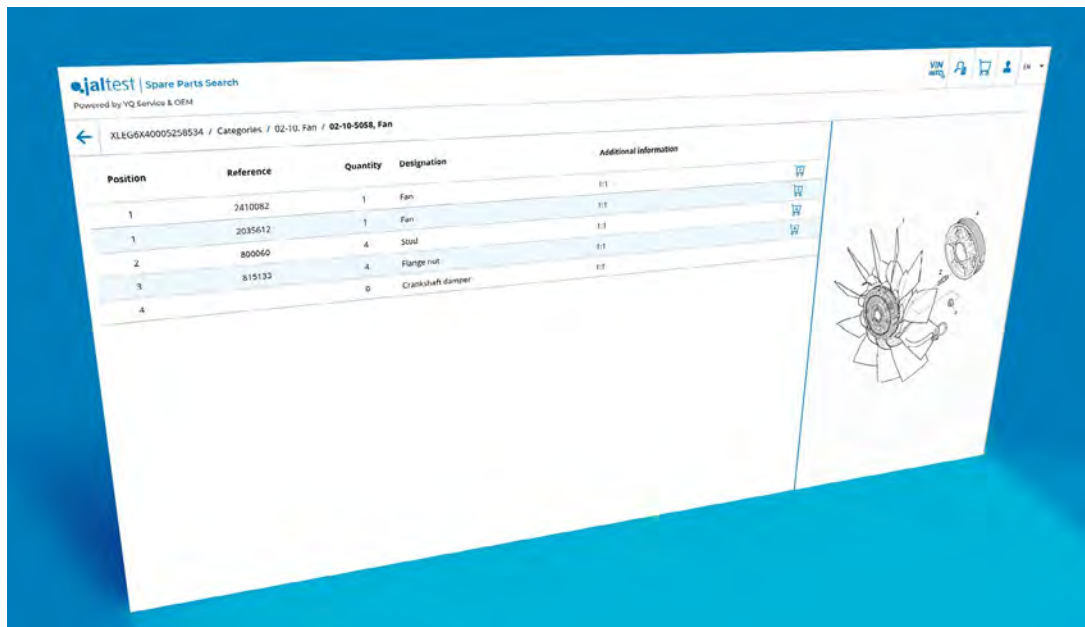

SPARE PARTS SEARCH

Spare Parts Search powered by YQ & OEM is the new add-on module designed to identify the specific OEM references of the vehicle components by means of the chassis number (VIN) with Jaltest Diagnostics. This module grants access to a detailed breakdown of the vehicle's component parts, including **exploded-view drawings, description, location and OEM references**.

It is possible to access Spare Parts Search by subscribing an annual licence to align with the Jaltest CV licence (ref. 70605041) or to get one year from the purchase date (ref. 70605039). It will be considered the same access as long as it is the same VIN and a maximum of 12 hours have elapsed. Otherwise, a new access will be consumed.

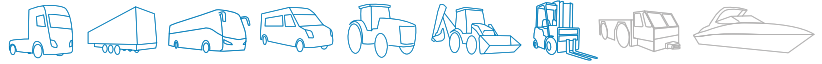

Subscription options

	Description	Reference	Price	Accesses	Validity
Subscription	SPARE PARTS SEARCH. LICENCE OF USE - ONE YEAR / 700 ACCESSES	70605041	180,00 €	700	1 year
Lite Pack	SPARE PARTS SEARCH LITE PACK - 100 ACCESSES	70605039	30,00€	100	1 year

Find out more about **SPARE PARTS SEARCH** on our website 

Notes: - When the Jaltest licence expires, the access to the Spare Parts module will be disabled, regardless of the number of remaining accesses available.
- Accesses to the same VIN with different language will count as different accesses.

JALTEST UNIVERSITY

In Jaltest, we offer universal and quality training within the reach and at the disposal of any professional in the sector. Our Jaltest University division includes our entire training offer, from courses traditionally taught on-site to e-learning courses.

JALTEST UNIVERSITY ON TOUR

From Cojali we aim at making our distributors from all over the work involved in this new training modality called Jaltest University On Tour, so that they can provide their workshops the same training that we offer at our facilities.

These training courses are addressed to the workshops, clients of our official distributors, which can select the course available in the program Jaltest e-learning. The training will be taught by a qualified trainer who will go to the facilities where the distributor wants the course to be held, and it will be conducted in Spanish or English. Should the course be conducted in another language, the distributor will provide a translator from English into the desired language.

The course duration can be chosen by the distributor according to their needs, between 1 and 2 days:

- 1 day*: The course will consist in 8hrs of exclusively theoretical training.
- 2 days**: The course will be split in a theoretical and a practical part for 8hrs each day. This modality will enable the participants to put into practice the concepts acquired during the training. For the practical part, there will be hands-on workshops in test benches and/or vehicles.

Note: In both cases, the distributor will be responsible for arranging the booking of the facilities and preparing the vehicles, if applicable.

Reference	Description	Price per day
710100004	TRAINER TRAVEL DAY	540,00 €
710100005	TRAINING DAY	2.240,00 €

Notes: - Accommodation, meal allowance and flights of the trainer not included. These expenses are to be borne by the distributor.
 - For courses conducted outside Europe, it will be required to contract 2 days at least.

TRAINING COURSES FOR DISTRIBUTORS

(not subscribed to Jaltest Service)

2-day training in Spain, English language (Minimum 10 participants)

Price: **1.000,00 € / person**

Note: Travel and hotel expenses not included

JALTEST E-LEARNING

Price: **95,00 € per course**

Jaltest University offers training available to everyone, anytime and anywhere through Jaltest e-learning. It is an online training platform that allows technicians to learn about topics related to commercial vehicles, agricultural equipment and OHW equipment.

Jaltest e-learning manages to show the technical content in a very intuitive, didactic and entertaining way. The syllabus of each course is shown through:

- Fast and easy navigation on the topic.
- High-quality explanatory videos, with the possibility of playing and pausing at any moment.
- Images that can be enlarged to improve the content display.
- Learning test.
- Sending of emails with resolution of questions and comments.
- Resolution of doubts directly with the trainer.

In short, Jaltest e-learning facilitates the learning of the technician, who is able to set their pace of learning.

Note: Please contact Cojali to get more information about the availability of our training courses in other languages.

JALTEST LICENCE OF USE TERMS AND CONDITIONS

The table below contains a definition of the main characteristics related to the different Jaltest product licence types.

LICENCE TYPE	SOFTWARE	SUBSCRIPTION CONDITIONS	AFTER EXPIRATION	RENEWAL AFTER EXPIRATION	REGISTRATION PROCESS
MAIN 	CV	-	-Access to all diagnostics functions. -No access to technical information. -Expert mode available. -Support for expired licence up to 1 year after expiration.	- Up to 15 days from the expiration date: X years from the expiration date. - After 15 days from the expiration date: X years from the renewal date.	- In the licence activation. - After the release of a new version. - Every six months, regardless of whether the licence has expired or not. In case of non-registration, the software will be blocked.
	AGV	-			
	OHW/MULTI-PURPOSE VEHICLE	-			
	MHE	-			
	MARINE	-			
	GSE*	*A subscription to OHW/CV is required.			
MODULAR 	TRUCK TRAILER BUS LCV TRUCK SELECT	-	Software blocked.	- Up to 15 days from the expiration date: X years from the expiration date. - After 15 days from the expiration date: X years from the renewal date.	- In the licence activation. - After the release of a new version. - Every six months.
	MANUFACTURERS*	*A Modular Truck, Bus, or both, licence is required.			
	ADAS	-			
	KNORR-BREMSE DIAGNOSTICS	-			
ADD-ON 	KNORR-BREMSE DIAGNOSTICS ADD-ON	A valid CV or Modular licence will be required.	Locked module.	N/A	N/A
	SGW				
	ETM				
	SPARE PARTS SEARCH				
	INFO PLUS				
	OEM RMI				

ADDITIONAL INFORMATION RELATED TO ALL LICENCE TYPES

- Maximum installations allowed per licence: 5 PCs. Jaltest hardware is compulsory to execute Jaltest software in a PC.
- The installation package can only be executed with a licence in force.
- Some modules of technical information will require Internet connection. The software will inform the user if necessary.
- Devices with more than one subscribed module may have expired licences that will behave in the same way as separately after expiring.
 - Modules with expired licence before 01/01/2022 will be locked.
 - Modules with expired licence after 01/01/2022 will automatically maintain the coverage of the last version installed before the expiration of the licence (22.1, 22.2, 22.3...).

JALTEST RECOVERY FEE FOR NON-MODULAR EXPIRED LICENCES

In the event of a problem that prevents the access to Jaltest software, it is possible to reinstall the latest version subscribed by the client. To do so, it will be necessary to purchase a Jaltest Recovery Fee.

- This procedure will be free of charge in case the licence has expired within 1 year from the date of request.
- The fee detailed below applies for licences expired for more than 1 year.

JALTEST RECOVERY FEE

Ref: **29226**

Price: **450,00 €**

JALTEST GRP

GRP (Garage Resource Planning) is the workshop management software included with Jaltest Diagnostics that allows you to organise and administer your daily activity in an agile way.

It centralises the information of customers, vehicles and reports, it distributes the workload in an efficient way and it access the whole data base at any time and from everywhere.

The Jaltest Diagnostics GRP is the ideal solution for small, medium and big workshops, thanks to the different modes that it includes and that can be activated free of charge according to your needs.

GRP SYNCHRO

The "Synchro" mode includes some extra functionalities in comparison with the "Basic" mode and it offers an added value by allowing the data base created to be hosted in the cloud. This allows all information to be synchronised and shared among different PCs of one workshop or workshop network and to always be available and updated.

- GRP Basic.
- User accounts control (10 maximum). Human Resources.
- Data Synchronization between multiple PCs. (Same Jaltest interface).
- Information back-up.

GRP ENTERPRISE

The "Enterprise" mode is the most complete one among the four available modes and it is the one recommended by Jaltest for our users and customers. It includes all the necessary functionalities to optimise the daily activity of your company and the host of information registered in the cloud. This way, it will be possible to access it at all times and from any PC within your own workshop or a workshop network.

- GRP Synchro.
- Workshop Management Module.
- Reception Module.
- "My Tasks" Module.
- Jaltest Telematics Module.
- Data synchronisation between PCs (same company).
- Work order reports.
- User accounts control (unlimited).

JALTEST ISOBUS

Jaltest ISOBUS offers solutions for the digitalisation of all types of agricultural equipment, ensuring compatibility between agricultural implements and tractors regardless of the manufacturer. The purpose is to achieve the maximum performance of agricultural equipment in order to manage successfully and easily a productive and efficient business, adapted to new technologies and environmental demands.

1. It ensures total compatibility between agricultural implements and tractors regardless of the manufacturer.
2. It controls all agricultural implements from a single working screen in the tractor.
3. It optimises times, resources and machines.
4. It automates the agricultural process.
5. It maximises the agricultural production and reduces costs.
6. It obtains efficient data for the decision-making and future season planning.

ISOBUS is a standard communication protocol created by the main manufacturers of agricultural equipment that ensures compatibility between tractors and agricultural implements of different manufacturers, enabling the data exchange by means of a universal language and a single screen in the tractor cab.

COJALI S. L. GENERAL SALE CONDITIONS

These General Sales Conditions of COJALI S. L., hereafter Cojali, will be applicable to all the commercial relations maintained with its clients. This document invalidates all previous General Sales Conditions different from those included in this document.

1. Definitions

In these Conditions, the following terms shall bear the meaning defined below:

"Seller" refers to Cojali.

"Client" refers to the natural or legal person who contracts the purchase of Goods with the Seller.

"Goods" refers to the product sold by the Seller to the Client pursuant to these General Sales Conditions.

2. General Information

The sale and supply of Goods, made by the Seller, shall be governed by these General Sales Conditions, except for those matters expressly agreed upon otherwise in the corresponding offer.

The Client considers themselves informed about the General Sales Conditions and accepts these, to all intents and purposes, from the moment in which the order of Goods is placed to the Seller.

If these General Sales Conditions are subject to translation into any foreign language, Spanish language shall prevail over any other translation in the event of disputes, contestations, lawsuits or difficulties in the comprehension or compliance with the General Sales Conditions, particularly those referring to the relations between the parties.

3. Intellectual and Industrial Property

The Seller does not own third-party trademarks, which are used only as a reference. Allusions to original brands are made for the identification of the products commercialised by the Seller, only for guidance purposes. Therefore, the Seller does not have corporate connection with the companies that own said trademarks.

The intellectual and/or industrial property of the Goods, the attached information, equipment, layouts, pictures, drawings, software incorporated or related thereto, belong to the Seller. Therefore, their use for other purposes is expressly prohibited for the Client, as well as their total or partial copy or transfer of use to third parties without the prior written consent of the Seller.

4. Orders

In order to consider the order of Goods performed, the Seller shall expressly accept it, thus becoming binding for both parties from that moment.

Orders placed by email, fax or any other means that proves in written form the acceptance of the order by the Seller will be fully valid.

Weights, dimensions, capacities, technical specifications and configurations regarding the Goods of the Seller included in the catalogues, flyers, leaflets and technical documents are intended for guidance and have non-binding effects.

Modifications and/or variations in the orders proposed by the Client shall be notified to the Seller in written form, by any means that thereby provide a written record. For these modifications or variations to become valid, they shall be expressly accepted by the Seller.

5. Prices

Prices exclude any taxes, duties or charges, which will be passed on later in the invoice, with the corresponding tax rates, as well as any expenses related to the sale of the Goods and their delivery.

Unless otherwise stipulated in the order, or an agreement on this matter between the Client and the Seller derived from their commercial relations, the prices do not include transport costs, which will be always charged as an independent concept. The prices may be changed by the Seller at any time by providing written notice to the Client.

6. Conditions of payment

The invoice issued by the Seller will include the sales payment conditions of the Goods. Said conditions shall comply with the instalments of the Spanish Law 15/2010, of 5 July, which establishes measures to combat late payment in commercial transactions, without exceeding under any circumstances the time limits established therein.

In the absence of an agreement between the parties, the payment shall be made upfront in any case.

The payment shall be made to the bank account of the Seller.

The payment shall be made without any deductions such as non-agreed withholdings, discounts, expenses, taxes or fees, or any other deduction.

If for reasons beyond the control of the Seller the delivery of the Goods is delayed, the conditions and instalments of the contractual payment shall remain.

In case of late payment by the Client, they shall pay to the Seller, without any requirement and from the payment due date until the actual payment of amounts due is made, the interest on arrears of the payment, which shall be calculated in accordance with the Spanish Law 3/2004, of 29 December. The payment of said interests shall not free the Client from the obligation of making the remaining payments under the agreed conditions.

Likewise, when the Client incurs in arrears, they shall be responsible for all costs of collection, such as litigation costs or arbitration costs, as well as the lawyers' fees, incurred by the Seller to enforce payment.

If the Client incurs in arrears of the agreed payments, the Seller may suspend temporarily or permanently, at their convenience, the delivery of Goods or the execution of the associated services, without prejudice of requiring the Client the payment of the arrears and of demanding, when applicable, additional compensations for this suspension in the delivery of Goods or the execution of the associated services.

7. Domain Reservation

As established in the Spanish Law 3/2004, of 29 December, which establishes measures to combat late payment in commercial transactions, the Seller will retain ownership of the Goods supplied to the Client until the full payment of their price.

In case of non-payment of the sale price of the Goods by the Client, they are obliged to return them to the Seller, being responsible for all costs and risks incurred in such return.

8. Delivery Term and Conditions

The time and place for the delivery of Goods shall be specified by the Seller in the acceptance of the order.

The delivery time may be modified when:

a) The Client fails to deliver on time the necessary documentation to place an order of Goods.

b) The Client requires changes in the order that, accepted by the Seller, cause a delay in the delivery, which shall be duly notified to the Client.

c) To carry out an order, it is imperative that the Client or their subcontractors perform any work and that these have not been implemented on time.

d) The Client has failed to fulfil the contractual obligations of the order, especially those related to the payments.

e) Due to causes not attributable to the Seller that could lead to delays in the production or delivery of all or any of the Goods of the order. The following are considered valid explaining reasons for the delay: strikes of suppliers, transport and services, failure in the supply by third parties, breakdowns in transport systems, floods, storms, riots, strikes, strikes of the personnel of the Seller or their subcontractors, sabotage, accidental stops of the Seller workshops due to breakdowns, etc. and force majeure events included in the current legislation.

In the previous cases, the delay in the delivery shall not imply any changes in the payment conditions of the order of the Goods.

9. Packaging

The packaging materials that come along with the Goods will belong to the Client.

Notwithstanding the foregoing, upon delivery of the Goods to the Client, the Client shall be fully responsible for them and in particular for their proper handling in accordance to the applicable regulations, especially in the areas of safety, environment, and waste treatment.

10. Inspection and Receipt

Once the order is received by the Client, they shall verify its content within 10 days from the date of receipt, in order to verify any defects and/or faults that may be imputed to the Seller, and shall communicate immediately to the Seller the existence of these defects and/or faults in order to take the measures deemed necessary for their elimination.

After these days from the date in which the Client receives the order of Goods, and without the Seller having received written notice of eventual defects and/or faults, the order shall be considered as accepted, and commencing from that day the warranty period.

11. Return of Goods. Claims

On the 10-day period established in the previous clause, the Client may notify the Seller of their intention to make a return, which shall be properly justified. The Seller shall communicate the procedure to be followed so that the refund is performed correctly, upon express acceptance of the refund.

The return of the Goods claimed by the Client shall be carried out with the original packaging and in perfect condition.

Once the return has been delivered in the facilities of the Seller, its content and state shall be checked. Those Goods already used, assembled in equipment or disassembled will not be accepted.

In any case, the claims of the Client to the Seller shall be submitted in written form.

12. Warranties

The Seller warrants the supplied products in relation to defects in materials, manufacture or assembly for a period of one year, with the exception of the Reman product line, which shall be warranted for six months.

The warranty shall consist in the repair or replacement of the items that have been recognised as defective, either by defects in material or by defects on manufacture or assembly. The repair shall be made at the facilities of the Seller and the Client shall be charged with the expenses incurred by the submission of the products or defective items to the Seller, such as transport expenses, taxes, customs, etc., as well as the costs of the subsequent delivery, once the reparation has been made.

The repair or replacement of defective items does not change the starting date of the warranty period of the whole product, which will be of one year. Under no circumstances shall the Seller be responsible for the repairs carried out by personnel not belonging to its organisation.

The damage or defects due to normal wear because of the use of the Goods remain excluded from the warranty. It remains also excluded from the warranty, which shall be considered expired, the damage and defects caused by negligence, beatings, misuse, inadequate preservation or maintenance, incorrect or defective assembling or installation, variations in the quality of the power supply (voltage, frequency, disturbances...), modifications made to the Goods without the approval of the Seller, installations made without following the technical instructions of the Goods, and in general any cause that is not attributable to the Seller.

The Seller is not responsible for the damages caused by the Goods during the warranty period. The Seller is only responsible for the replacement of the damaged Goods.

13. Disclaimer

The liability of the Seller, their agents, employees, subcontractors and suppliers for the claims arising from the performance or breach of their contractual obligations is limited to and shall not exceed the whole contractual base price and shall not include either in any case the damages resulting from the loss of profits, loss of income, production or use, capital costs, inaction or delay costs, claims from the customers of the Client, costs of alternative energy, loss of anticipated savings, increase on the operating costs or any special damages, indirect or consequential or losses of any type.

The Seller, its agents, employees, subcontractors and suppliers shall not be liable for additional demands, especially those due to consequential damages. Likewise, it shall not be liable for any personal, material or monetary damage that the personnel of the Client or a third party might suffer due to material defects.

14. Applicable laws. Submission to Jurisdiction and Competent Authority

Any commercial transaction with the Client shall be governed by the Spanish Legislation, which will apply in all matters related to the interpretation, validity and implementation of these General Sales Conditions.

The parties expressly reject any other jurisdiction that might correspond to them and are subject to the jurisdiction of the Courts of Alcazar de San Juan, province of Ciudad Real, to resolve any dispute that may arise in the interpretation or compliance with these General Sales Conditions.
